

Better Air is Our Business®

# AmericanAirFilter® Bulk Roll Fiberglass Media

Economical Filter Media Rolls for Large Users

## Applications

For use by filter fabricators, filter service contractors, original equipment manufacturers, and other large users of fiberglass air filter media.

## Select the Media to Suit Your Applications

**Standard Grade With Skin** - Designed for light to average dust loading conditions. Available in 1/2", 1" and 2" thicknesses. The fibers are arranged in a constant density construction and coated with a light amount of Viscosine® adhesive to increase the amount of dirt the media can hold. The media is designed with a skin on the air leaving side.

**Commercial Grade With Skin** - Designed for normal to above average dust loading conditions. Available in 1" and 2" thicknesses. Commercial Grade media is made with Progressive Density construction to hold more dirt. The weave pattern of the fibers becomes progressively tighter from front to back allowing dirt particles to penetrate deeper before being caught. Commercial Grade media contains more fibers per square foot than Standard Grade media and has a heavier application of Viscosine adhesive.

**Coatings Collection Media With Skin (FG-2)** - Specially designed to collect overspray solids in paint booths. The dry media is 2" thick with an open weave fiber pattern to allow paint and other coatings solids to penetrate deep into the fibers.

**Custom Designed Media** - AAF® will design a media to solve an unusual air filtration problem. Discuss the requirements of your applications with your AAF Representative.

## Standard Product Information <sup>(1)</sup>

Media Type	Nominal Thickness	Actual Thickness ± 1/4"	Roll Width	Nominal Roll Length ±5%	Progressive Density Construction	Skin or Scrim Construction	Viscosine Adhesive	Media Tint
Standard Grade	1/2"	1 1/2"	6" - 96"	220'	No	Skin	Yes	Green
	1"	1 1/2"	6" - 96"	220'	No	Skin	Yes	Green
	2"	2 1/2"	6" - 96"	210'	No	Skin	Yes	Green
Commercial Grade	1"	1 1/2"	6" - 96"	210'	Yes	Skin	Yes	Blue
	2"	2 1/2"	6" - 96"	210'	Yes	Skin	Yes	Blue
Coatings Collection Media (FG-2)	2"	2 1/2"	6" - 96"	210'	No	Skin	No	Green

(1) Variations in amount of adhesive and tint color are available. Minimum order quantity required.

## Underwriters Laboratories, Inc. Classification

All media classified UL Class 2. Testing was performed according to UL Standard 900.
