

# Introducing the New Weld Fume Extractor

## Portable Weld Fume Extraction

The AAF Weld Fume Extractor is a robust portable filtering unit designed for easy transport from operation to operation and suitable for most weld fume removal applications, including stainless steel fume extraction.

The extraction arm is the easiest to use in the industry and is engineered to stay in place, regardless of position.

In addition to being easy to use and maneuver, the powerful 1,200 CFM/2,040 m<sup>3</sup>/h fan also operates at a quiet 69 dBA. The main filter can last for up to 2,000 hours of fume collection.

### Benefits & Features
